

Product Summary

1840/CB2 Premium quality, super strong hazardous vault for storing hazardous goods safely and securely.

Benefits

- Durable construction from 2mm & 3mm thick steel with fully welded seams throughout
- Finished in Yellow RAL-1023 using high grade epoxy-polyester powder coating with anti-corrosive undercoat for excellent durability
- Chembank base includes a fully welded 85 litre built-in sump for the safe collection of spillages
- Heavy duty lid secured with anti-jemmy system and 2 x 5 lever deadlocks (supplied with 3 keys) for excellent security
- Avoids the need to pump and drain transformers on site. Contains leaks during transportation.
- Suitable for short term contact/storage of oil or oil contaminated water.
- For other applications please consult our technical department.

Colour:	Yellow
Size:	H x W x D: 127 x 66 x 66mm
